Studies

03/2025 – Present

Technische Hochschule Deggendorf, Technologie Campus Cham

M. Eng. in Applied Artificial Intelligence for Digital Production Management

- **Mainfocus:** ERP, MES, Production Daten Management, Digital tools, Additive Manufacturing.
- **Projects :**
 - Article Image Generation
 - Solid modeling and simulation
 - Sentiment Analysis of Product reviews from an Online Marketplace

09/2019 – 05/2023

Maharaj Vijayaram Gajapathi Raj College of Engineering (A), Vizianagaram, Indien

B.Eng. in Mechanical Engineering (Final Grade: 2,6)

- **Specialization:** Bio-Diesel Work und CAD
- **Bachelor Thesis:** " Effect of Injection Pressure on Vibration, Noise, and Performance Analysis of Diesel Engine Using Coconut Biodiesel and Its Blends "
- **Tasks:**
 - Monitored emissions data and evaluated the environmental impact of using coconut biodiesel
 - Assessed the achieved emission reductions

Practical Experience / Projects

09/2022- 02/2023

Internship in Manufacturing at BHEL HPVP, Visakhapatnam, Andhra Pradesh, India

- Practical experience with manufacturing processes, machinery and quality control measures for high-power electrical equipment
- Contributed to process optimization initiatives, supported productivity improvement efforts and identified potential cost-saving opportunities
- Developed a solid understanding of industrial production protocols and operational efficiency in a large-scale manufacturing environment
- Assisted in monitoring and coordinating production line activities, ensuring smooth workflows and compliance with safety standards.

06/2021 – 11/2021

Internship in Manufacturing at Siemens, Visakhapatnam, Andhra Pradesh, India

Topic: Refrigerator and air conditioning foundation

- Gained hands-on experience in the design, operation and maintenance of refrigeration and air-conditioning systems
- Participated in knowledge exchange on the selection of compressors, condensers, evaporators, expansion valves and refrigerants as well as their integration into systems

08/2020 – 12/2020

Internship in Manufacturing at Siemens, Visakhapatnam, Andhra Pradesh, India

Topic: Manufacturing welding foundation

- Acquired knowledge of various welding processes (MIG, TIG, Arc, Spot) and understood their applications, advantages and limitations
- Learned to set and adjust welding parameters (current, voltage, shielding gas, travel speed) to meet strength and quality standards

IT Skills

3D-Printing Related Programs:

Autodesk Fusion 360
